## LEARNING MODULES

### **The Trap: human trafficking digital education tool**

- The human trafficking education tool, The Trap simulates being targeted and recruited by a sex trafficker. It is intended to raise awareness about sex trafficking among youth in middle and high school teaching them what the dangers are, how to avoid them and where to get help.
- The Trap is designed to be used as part of a facilitated discussion led by an adult. **Facilitators must register with an email address.**
- Your email address will not be released to any third party, except as may be authorized by law and you will not be placed on a mailing list unless you provide consent to do so.

### **As Safe as Possible (ASAP) Learning Module on the Real Xchange**

- The ASAP project focuses on educating people with an intellectual disability how to recognize and avoid victimization from crimes of human trafficking and exploitation.

### **Online Training Initiative to Address Human Trafficking**

- This service is funded by the Ontario government and offers free online training, resources, tips, and tools to assist service providers working with survivors of human trafficking.

### **The SHIFT Training**

- The SHIFT is a free online training tool that intends to increase the knowledge and practice of harm reduction within the developmental services sector. It aims to make differences in the lives of individuals with intersecting vulnerabilities and oppressions.
