

Resource Management Activity

How to Play - Legos

Need: enough people for at least three people in a team.

Team Of three members will be given a limited amount of Legos.

As a team, manage to build something meaningful with the limited resources of Legos given. Time limit of 5 minutes

After building with your team members, indicate what you built discuss it, and explain how you managed your resources.

After the activity, ask your team members to think about the strategies they used. Discuss these questions:

What management skills could you have used to utilize the limited resource.

What could they have done better?

What you did best?
