

STRATEGIC THINKING INVOLVES:

Recognizing and acting independently while considering the impacts on others.

Taking responsibility for your actions and inactions and seeking to improve.

Using professional judgement to decide/act when the situation demands a quick response, while using a person directed approach.

Demonstrating time management with effective prioritization and follows up on progress to ensure task completion.

Evaluating plans to assess the gap between the current state and desired future direction and adapts as necessary.

Working with teams to set program/operational goals and plans in keeping with the strategic direction and/or vision of the individual.
